‘Connect Us Too’

Mental Health Programme 2019 launched

Following on from our work last year on mental health issues for people with a hearing loss, we have launched our new Mental Health programme ‘Connect Us Too’ on Friday 12 April 2019 at Deaf Links, Dundee. Over 70 people attended, many of them from mental health organisations / background.

Working in partnership with Deaf Links, See Me and ITV SignPost with support from The ALLIANCE, we developed a series of accessible film clips in British Sign Language (BSL) with subtitles and voiceover, introducing some key information from the See Me Campaign about mental health and wellbeing for deaf people, including BSL users in Scotland. Deaf BSL users from Tayside area, worked alongside a number of health professionals, to build knowledge and understanding on mental health for deaf people.

The film clips are designed to breakdown the stigma of mental health issues and encourage deaf people to talk to others, whether they’re deaf or hearing, about how they are feeling and to build resilience. The work has also been supported by The ALLIANCE Self-Management programme and peer supporters are being trained to help build resilience across deaf communities in Scotland.

If you have any questions or would like more information, please get in touch with Derek Todd, BSL Consultant by email:

From the Health and Social Care Alliance Scotland (The ALLIANCE)

Humans of Scotland Campaign

The ALLIANCE is currently running a project that gives a voice to those living with long term conditions, disabilities, as unpaid carers and those working to provide support and services, through storytelling.

The project is social media based with stories being shared on Instagram, Facebook, Twitter and also on The ALLIANCE's website to reach as many people as possible. The stories take the form of a short body of text of 300 words and an accompanying photograph.

From Queen Margaret University BSL / English Interpreting Landscape Review

Queen Margaret University is conducting research on behalf of the Scottish Government. This research is directly connected with actions on the British Sign Language National Plan 2017-2023, which follows on from the British Sign Language (Scotland) Act 2015.

The Government would like to know more about the landscape of British Sign Language (BSL) interpreting in Scotland to better inform their policy decision-making in relation to British Sign Language, and to inform those responsible for their own British Sign Language Plans.

One element of this research is a survey for public bodies, which can be found at this link:

<https://qmu.onlinesurveys.ac.uk/bslenglish-interpreting-landscape-public-bodies>

The survey has 32 questions, and should take you no longer than 30 minutes to complete. The survey questions explore the way you contract interpreting services, how you book interpreters and the demand you

have for BSL interpreting. There is a link within the survey should you wish to return to it and complete it at a later date.

All public bodies are encouraged to complete the survey and submit it by the deadline of 22nd April 2019.

The results of the BSL/English Interpreting Landscape Review will be reported to the Scottish Government in October 2019.

From Scottish Government Delivery of Disability Assistance to start in 2020

Responsibility for all devolved benefits, including their funding, will sit with the Scottish Government from 1 April next year, with delivery for disability benefits rolled out shortly after.

The system will have a redesigned application process and significantly fewer face to face assessments, which will be carried out through the agency by qualified assessors and audio-recorded as standard. There will be rolling awards with no set end points and those with fluctuating health conditions will not face additional reviews due to regular changes in needs related to their condition. We will also move the burden of collecting information from the client to Social Security Scotland.

From Scottish War Blinded

Scottish War Blinded is a long-established charity that provides free support to those who have served at any time in the Armed Forces and who now have a sight impairment that is having an impact on their independence.

While we support a small number of individuals who lost their sight as a result of their service, most people left the Forces many years ago and now have an age-related condition such as macular degeneration, glaucoma or others. National Service ended in 1960 but until then, most young men and many women completed sometime in the Forces: for

those now in their late 70s and above, asking if they are a veteran could be the passport to services that could transform their lives.

The aim of all our services is to maintain and increase our members' independence and improve their quality of life. We have 15 outreach workers who cover the whole of Scotland. They visit members to offer advice and information on coping with sight loss, free specialist VI equipment to enable independence and links to other relevant local services.

We can offer additional financial support, respite and sitting services, funding for house adaptations and many social opportunities for veterans who may have become be isolated as their sight has deteriorated.

In addition, we have two centres in Paisley and West Lothian where our members can go on to take part in training to cope with sight loss, regaining lost skills and learning new ones.

From NHS Greater Glasgow and Clyde eHEALTH INNOVATIONS

There are a number of innovative eHealth projects going live across GGC and last week we highlighted two which are helping patients get their care more locally. The first is a joint project with NHS Western Isles. One of our orthopaedic surgeons, Grzegorz Sianos, who specialises in hand surgery, is offering video conference clinics in collaboration with physiotherapists in NHS Western Isles that allows patients in the isles to receive their initial assessments via video, in order to prevent unnecessary travel to mainland Scotland.

The second eHealth innovation is the introduction of remote video consultations on physiotherapy for patients with respiratory conditions which has now gone live in the north sector of NHSGGC. Thanks to a new streamlined approach to physiotherapy advice patients can seek information virtually rather than physically attending a traditional clinic setting. Accessing the service through an app from a phone, PC or tablet, allows the patient to remain at home or work and get the physiotherapy advice and support they need for their condition.

You can find out about all these stories and more by visiting the website below:

From Equality and Human Rights Commission (EHRC)

New Resources for Advisors

We are pleased to share with you a selection of new resources. We hope these will help you when you're assisting someone who might have been discriminated against.

[Employment Toolkit](#) and Housing Toolkit – useful step-by-step guides for dealing with potential cases of discrimination.

The Commission recently funded Citizens Advice and Citizens Advice Scotland to produce these two online toolkits for those who are advising victims of discrimination – one focussed on employment and the other on housing.

Speaking about the toolkits, Citizens Advice Scotland's CEO Derek Mitchell said: "These toolkits are a great example of what joint working across organisations can achieve. They will enable people to identify instances of discrimination and take appropriate action, helping make our society fairer."

[New Scotland guide on discrimination and the benefits system](#) – a comprehensive resource for anyone working on discrimination issues in the context of benefits.

The Commission in England and Wales funded the Equality and Diversity Forum (now Equally Ours) to produce a guide on discrimination and the benefits system. A Scotland version of this has now been released and provides information and practical tips for people who are facing discrimination and those who are helping them.

In addition to these new resources, we continue to publish new and updated guidance, reports and advice on our website. These include our Handbook for Advisers, which gives a brief overview of the Equality Act 2010, and our Codes of Practice, which provide examples and in-depth explanations of how the law works in practice.

The aim of the competition is to give Signing Choirs chance to showcase their talents and compete on a national level with other choirs in the UK. Signing Choirs – What exactly are they?

A number of people have been asking; they are choirs that perform like any other choir but rather than sing with their voices, they sing with their hands in British Sign Language, while telling a visual story behind the song they are “Singing”.

Singers express the song through the pitch, tone and emotion of their voices, Signing Song performers do the same with their hands, body and facial expressions, it is a visual spectacular for the senses. So if you are not in a choir, **save the date** and come along and experience a fabulous night of visual music!

Positive Mental Health in Children & Young People

Tuesday 30 April 2019

This course will be of interest to teachers of visual impairment, teachers of the deaf, class teachers, support for learning teachers and assistants, educational psychologists, social workers, and parents/carers.

Mental health is a key ingredient in helping children to become successful learners, confident individuals, responsible citizens and effective contributors. Without positive mental health, children and young people are at risk for a range of difficulties. But how does positive mental health develop, and how can we help children and young people who are struggling?

While this one-day course does not train you to become a mental health professional, it will give you an invaluable understanding of mental health and relevant strategies to support young people. Key learning will include:

What is mental health? Why does it matter?

The neuroscience of brain development.

Impact of toxic stress and early life adversity ('Adverse Childhood Experiences').

Links between mental health and behaviour – how can we help?

Mental health 'red flags' – when to refer on for further support.

Secondary stress and self-care.

Presenter: Frances Griffin, Place2Be Consultant trainer in Teacher Education.

Cost: FREE

Restrictions: 25 places

Venue: SSC, Edinburgh
